

Clx Europe is a leading factory in content creation. It works worldwide, has production sites in Italy, India and Thailand. Commercial sites are in Europe (Verona, Milano, London, Hamburg) and USA (New York, Austin). Clx has more 500 employees in the world.

The main markets are:

- Luxury (Gruppo LVMH, Kerig, Prada, Trussardi...)
- Automotive (Ducati, Renault Volvo Trucks, OZ)
- Catalogue/Publishers (Mondo Convenienza, Gruppo Editoriale GEDI, Otto, Franke)
- Furniture/Industries (Leroy Merlin, Lago, Valcucine, Wihrlpool, Candy)

CLX produces digital content in following segments:

- Still life for e-commerce
- Adv Pages
- Colour Retouch
- CGI images and Videos
- Software solutions

#### *Using the Intelligent Color Server - KOLOR-D from Klearvision:*

KOLOR-D is used in CLX production, for **Gruppo Editoriale GEDI** (*the largest Publisher in Europe*). KOLOR-D is streaming tiff, jpg, pdf files directly in one pass, to *CMYK with Ink Saving*, using the the KOLOR-D *Intelligent processing*.

We have installed 2 licenses single user + 2 licenses multiple user: total 6 instances works together in VMWare cluster/Windows OS. Every day we process an average of 4.200 images since 12 am to 10 pm (plus 1,5 million of images per year). Using IES Prefs, customised to our workflow, for various functions, every image element is processed automatically, fast with precision and great quality result.

Klearvision is our supplier since 2012. They are a flexible and efficient partner. Klearvision customised KOLOR-D according to our workflow requirements. The support is efficient, fast providing us SW solutions for new image formats and other needs.

Best regards,  
Daniele Parietti
